Bray Associates Architects, Inc.
Attn: Nate Considine
829 S. 1st Street
Milwaukee, WI 53204

Dear Nate:

Thank you for the opportunity to provide consulting services for the upcoming Fall Creek high school gymnasium project. The following services were requested:

- Scope of work to include the design, layout, construction drawings, and specifications for audiovisual, theatrical lighting/rigging and curtain systems and equipment, as well as coordination with Bray Architects and other consultants

Additionally, the scope of work shall include the following:

- Participation in two (2) in-person design review meeting with the owner if necessary.
- Participation in no more than one (1) virtual meeting per month with Bray Architects, engineering consultants, and the owner for design and coordination throughout the project.
- Necessary drawing backgrounds shall be provided by others in AutoCAD .dwg format. Revit modeling will not be supported.
- Provide a minimum of two (2) progress drawings sets during design, in addition to the final construction documents.
- Conduct shop drawing and submittal reviews during construction administration.
- Conduct one (1) site visit to observe work in progress during construction.
- Conduct one (1) site visit for final observations and punch list near the completion of construction.

Gymnasium Audio-Video:	\$12,000.00
Gymnasium Lighting/Rigging/Curtains:	\$18,000.00

We look forward to working with you on this project!

Respectfully,

Jason W. Keagy
